

## **Sherry Bales went on a mission trip to Haiti after the massive earthquake**

Sherry Bales, an OGI faculty member, has been on a number of missions, but she said nothing can compare to the two months she spent in Haiti.

Sherry and a colleague went to Haiti to assist the many earthquake victims by providing physical therapy.

We want to acknowledge her effort. She went because she thought it was the right thing to do and her efforts were surely appreciated by the people she helped.
